

Women's and Children's Health Network

PGY2+ Recruitment Info 2026 Clinical Year

Realise your potential

at the Women's and
Children's Health Network

Women's and Children's Health Network

The Women's & Children's Health Network provides state of the art health care for women, babies, children, and young people across South Australia. We are the state's leading provider of specialist care for children with acute and chronic conditions as well as being South Australia's largest maternity and obstetric service, and statewide Maternal Foetal Medicine service.

Join our team and contribute to providing South Australia's women, babies, children and young people with the best health care through both within our hospital or via our many and varied community services and programs.

WCHN Prevocational Resident Program (PRP)

PRP positions at WCHN offer PGY2+ candidates a chance to gain further prevocational experience in both Paediatrics (Medicine and Surgery) and Obstetrics and Gynaecology. This program ideally suits Trainees preparing for General Practice, entry to a Paediatric or Obstetrics and Gynaecology College or those seeking further experience in these speciality areas prior to deciding upon a final career path. This program meets the requirements for the AMC 2-Year Prevocational Framework.
